

Section 6. Fiscal/Rates

6.1 Fiscal Intermediaries

There are three services under the DD Waiver that are not reimbursed directly to the provider but rather, require the use of a fiscal intermediaries. They are:

- Community Educational/Therapeutic Activity (CETA)- Annual allowance of \$2,000.
- Family and Caregiver Training - Annual allowance of \$2,000; and
- Room and Board for a Live-In Caregiver - Up to monthly maximum of \$545/month

In order to keep these services flexible and responsive to individual needs, a certified Residential Habilitation provider or Community Habilitation provider will act as the Fiscal Intermediary by paying the direct service provider (camp, horseback therapy, community college, etc.) and billing Medicaid on a standard HCFA 1500 form for the actual reimbursable expense per activity.

No administrative fee may be billed.

These services must be in the POC/CCB in advance of their provision and the cost should be pro-rated over the year. The Individual Support Plan must address the specific activities under CETA and Family and Caregiver Training.

See Sections 4 and 5 for further information regarding definitions and qualifications for these services.

6.2 Rates (Attached)
